

Time: 20 minutes

Marks: 15

- 1) a) Difference between transduction and transducer 1
- b) Difference between RTD and Thermistor 1
- c) Explain the major advantages of using electrical transducers over mechanical methods 1.5
 What does a positive temperature coefficient (PTC) indicate?
- d) List three critical material characteristics that an industrial-grade metal must possess to be highly effective as an RTD element. 1.5
- 2) Determine the ratio of C_1/R_1 , C_2/R_2 , C_1/R_2 , C_2/R_1 from the block diagram 5

- 3) Determine the transfer function 5
